# RECYCLED ABS

I principali vantaggi della plastica ABS sono il suo punto di fusione relativamente basso e la sua temperatura di transizione vetrosa, che ne facilitano la fusione e l'utilizzo nello stampaggio a iniezione. Grazie a questo, è considerato un materiale molto versatile e perfetto per un gran numero di applicazioni.

Quando parliamo di RABS, ci riferiamo a un materiale riciclato post-consumo. È caratterizzato da approvvigionamento sostenibile e bassa impronta di carbonio.

ABS plastic main advantages are its relatively low melting point and its glass transition temperature, which makes it easy to melt down and use in injection moulding. Thanks to this, it is considered a very versatile material and perfect for a great number of applications.

When we talk about RABS, we refer to a post-consumer recycled material. It is characterized by sustainable procurement and low carbon footprint.

# Legno di Acacia

## Acacia wood

Se vuoi un tagliere che abbia tutti gli aspetti importanti da cercare (**durevolezza, bellezza e resistenza**), non guardare altro che un tagliere in legno di acacia. È anche versatile: parte della bellezza di questo legno è che può essere utilizzato come piatto da portata dopo essere stato utilizzato come tagliere. L'acacia è in realtà una scelta intelligente per un tagliere.

Il legno è estremamente durevole, resistente all'acqua e resiste ai graffi. Anche gli alberi crescono rapidamente, rendendo la loro raccolta sostenibile.

*If you are looking for a cutting board that has all of the important aspects to look for (**durability, beauty and resistance**), look no further than an Acacia wood chopping board. It's versatile too - part of the beauty of this wood is it can be used as a serving platter after being used as a cutting board. Acacia is actually a smart choice for a cutting board.*

*The wood is extremely durable, water resistant and resists scratching. The trees grow quickly too, making harvesting them sustainable.*

# SEAQUAL

What is the SEAQUAL initiative? It is an initiative that seeks to challenge the plastic pollution of our oceans by cleaning up marine litter and promoting an increasingly sustainable society.

SEAQUAL fabrics are made with polyester yarns from recycled materials from the sea, thus helping to preserve natural resources and keep the oceans clean.

With a production process with controlled traceability, most of the plastics collected are recycled and transformed into yarns based on responsible processing. The result is a fabric that meets all quality standards.

## CLASSIC DESIGN HOOD PEN

Made in natural material.

## Perché utilizzare la fibra di pietra?

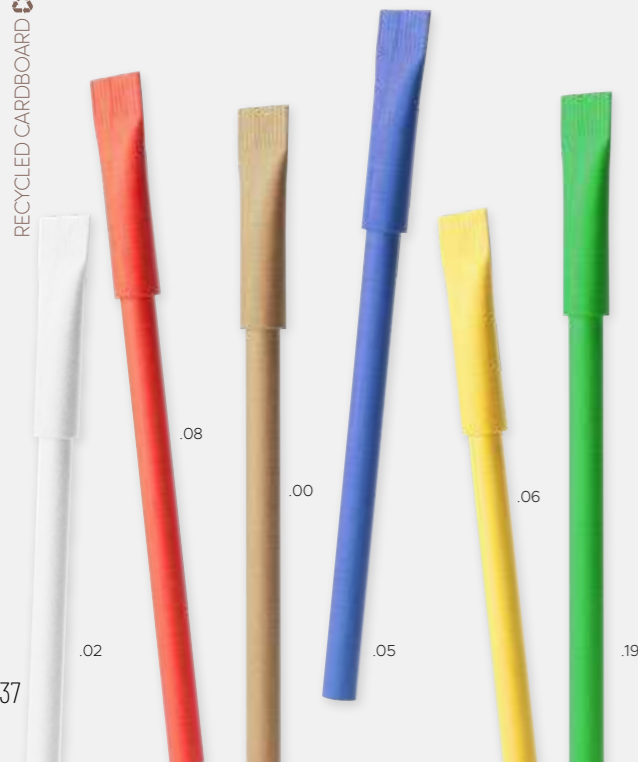

Materiale estratto dalla pietra naturale, che conserva diverse proprietà come la durabilità e la conservabilità. La scelta più ecologica per sostituire la plastica.

Diventare ecologici è essenziale per la creazione di una terra sostenibile che richieda meno gas serra, conservazione della natura, nessun inquinamento atmosferico e nessun riscaldamento globale. È possibile con l'uso di prodotti riciclati, utilizzando pratiche di riduzione dei rifiuti che rendono il globo un luogo perfetto in cui vivere nelle nuove generazioni.

## STONE FIBER DURABILITY AND PRESERVABILITY

RECYCLED CARDBOARD

23017  
**Jerry**

Penna a sfera con fusto e cappuccio in carta. | Ballpoint pen with body and cap made of paper.

Cartoncino | Cardboard

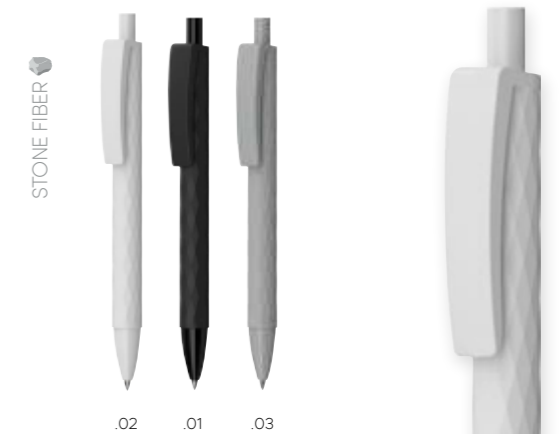

16 cm

## Why using stone fiber?

Material extracted from natural stone, that retains several properties such as durability and preservability. The most eco-friendly choice to replace plastic.

Going green is essential for the creation of a sustainable earth that requires less greenhouse gases, nature conservation and suffers no air pollution or global warming. It is achievable with the use of recycled products, employing waste reduction practices that make the globe a great place to inhabit for the next generation.

Elastic closure, coordinating page marker.

Cartoncino Riciclato | Recycled Cardboard

14,5 x 21 cm

Notebook made with the recycling of milk cartons

## The Components of Milk Cartons.

Milk Cartons are made up of a number of components which are layered:

- Paperboard (made from wood)
- Polyethylene (a type of plastic)
- Aluminum.

1000 milk cartons can instead of a tree

## Milk Cartons are Recyclable!

When recycled, milk cartons can go on to be transformed into new paper products as well as eco-friendly materials rather than end up in a landfill.

# FAIR TRADE COTTON

Fair trade is a global movement made up of a diverse network of producers, companies, consumers, advocates, and organizations putting people and planet first.

Fair trade is a way to make a conscious choice for a better world. A choice for Fair Trade Certified™ goods is a choice to support responsible companies, empower farmers, workers, and fishermen and protect the environment.
